

Message about new features of The SPiN Network
www.thespinnetwork.com

With the Covid-19 crisis causing an upheaval for schools, teachers, students, parents, band directors and performance ensembles – we have listened to feedback from the community and made some changes to The SPiN Network:

FREE STUDENT ACCOUNTS

Due to the need for more distance learning, we have created SPiN Student Accounts. These accounts are free for students, and allow them to be able to watch content/lessons from their teachers/instructors while being copyright compliant.

Schools/Ensembles/Directors can set up a channel on SPiN for no charge. Once they set up a channel, each ensemble will be able to send a link to students for them to sign up and be able to watch lessons.

Here is a link to directions on how to set up a channel and the Student Accounts (<https://thespinnetwork.com/instructions/Video-Channel-How-To.pdf>).

FREE ALL-ACCESS SUBSCRIPTIONS

While students/parents/fans are staying at home and unable to practice, perform or watch their bands/ensembles – SPiN is making the month to month all access subscriptions free for at least the next 2 months.

Hopefully being able to watch performances hosted by Bands Of America, USBands, The Ohio Music Educators Association and other schools and organizations will bring some joy during these difficult times.

If your school or organization has archived performances that you want to make available to the public – please go to www.thespinnetwork.com to set up a **free** channel and start uploading videos.

Please contact larry@thespinnetwork.com or info@thespinnetwork.com with any questions.
